Krzysztof Pajak

SENIOR SOFTWARE DEVELOPER

Experienced software developer with over ten years in the industry, constantly seeking innovative solutions to everyday problems. Strong analytical thinking and collaboration skills with a passion for problem-solving. Firm believer in core design principles that make software readable, maintainable, and testable.

EXPERIENCE

Senior C# Full Stack Software Developer Oct 2021 – Present
Relex Solutions · Stoke-on-Trent (Remote)

Large-scale store floor planning platforms for M&S, WHSmith, and Lidl.

- Decoupled tightly coupled API code into testable, exchangeable services
- Created comprehensive unit tests ensuring high code coverage
- Designed and developed new endpoints and underlying services
- Built micro-frontend services in TypeScript and React to replace on-premise desktop solutions

Senior Software Developer Jan – Oct 2021
Redfish Systems · Kettering (Part Remote)

Led a Clean Architecture project for energy supplier customer operations.

- Architected customer gain/loss system interfacing CRM with external DCC API
- Implemented loosely coupled layers with Dependency Injection and xUnit testing
- Used Dapper and RoundhouseE for data access and automated database deployment

Software Developer Apr 2019 – Nov 2020
Nimbus Property · Warwick

Full stack development on the Nimbus Maps PropTech web application.

- Implemented new UI designs using HTML, CSS, jQuery, JavaScript, and Bootstrap
- Migrated map layers from Fusion Tables to WMS tiling for independent layer management
- Introduced SCSS, module pattern, and database continuous delivery with RoundhouseE

Systems Developer May 2018 – Apr 2019
Oxygen Finance Ltd · Birmingham

- Built back-end for public sector financial systems using .NET Core 2.1, EF, and RabbitMQ
- Created efficient data pipelines with comprehensive unit and integration tests

Database Developer Feb 2016 – May 2018
FPS Distribution Ltd · Stratford-upon-Avon

- Designed MS Access projects with Azure SQL back-end for business reporting
- Re-engineered legacy Access solutions and improved UI/UX

Finance Assistant Dec 2013 – Feb 2016
NHS Arden CSU · Warwick

- Developed Access projects to improve financial team performance and replace Excel workflows

BI Data Technician Jun – Sep 2013
Codemasters · Warwick

- Analysed mobile games market data and created streamlined reports for the development team

Accounts & Logistics Administrator A1 Fruit Ltd Jan 2010 – Jun 2013

Order Picker & VNA Forklift Operator EMI Distribution Sep 2006 – Apr 2009
